

## **FAQ's - LOCAL IPACE REBATES** (Updated 11/15/2019)

### **How much rebate money is available to a local?**

The IPACE fiscal year runs from July 1 through June 30. Local rebates are available for contributions received during the prior fiscal year, and there is a twelve-month period in which to request the prior year's rebate. For example, rebates for contributions received by IPACE during the 2019-2020 fiscal year can be requested by a local any time after June 30, 2019 and before July 1, 2020.

Locals may request three different levels:

1. *Level I Standard Rebate* - is \$6.00 per IPACE contributing member is available each year.
2. *Level II Special Rebate* – is an additional \$9.00 per contributing member (\$15.00 total) if you have special circumstances that will require more funding. The reason for such a request should be fully documented in your written rebate request.
3. Finally, under unusual circumstances a *Level III Priority Project* rebate of larger than \$15.00 may be available. This rebate requires a budget and the approval of the IPACE Executive Committee. Contact Government Relations for further details.

### **How do locals request their rebate money?**

Rebate requests must be made in writing or by e-mail. Written requests can be sent to the Government Relations Department at IEA Headquarters in Springfield. E-mail requests can be sent to Sean.Denney@ieanea.org, or to your lobbyist.

### **What else do I need to know about local rebates?**

It is important that all political action funds be fully accounted for and spent for the proper purposes. They should be kept in a separate, non-interest-bearing checking account and complete records should be kept as to how they are spent
